G105	Deep Wrinkle Filler
L1	Biox Intensive Age Treatment Cream
L2	Biox Intensive Age Treatment Serum

Anti-Aging Capsule Treatment (G102 & G103) are for Age 41-up as a first aid treatment that is proper for women who went through significant events, such as extreme weather, menopause, mental stress, pregnancy, or extreme diet. They are a 31-day and 31-night treatment that are recommended to be used at least twice a year. **Biox Serum** and **Biox Cream** can be used with the **Anti-Aging Capsules**.

Anti-Aging Cream is great for every woman during the night time as it contains highly effective nutrients to moisturize the skin. It is a first aid treatment to women after surgery or not treating the skin for a long time. It can be used for 2 months out of the year, and it has an effect like antibiotics. After 2 months, another cream should be used instead.

****The "4 Signs of Aging" are the following: **Fine Lines, Uneven Skin Tone, Poor Skin Texture, and Surface Dullness.**

Our Deep Wrinkle Filler (G105) may be applied before any serum and/or cream.

The 7 steps for applying our products are as follows: 1) Cleansing/Exfoliating, 2) Toning, 3) Mask (twice a week), 4) Deep Wrinkle Filler, 5) Serum, 6) Cream, 7) Mask

If 2 or more masks are listed, then you may use 1 mask at a time or alternate the masks during the same period.
